

HOW TO STORE TREES IN TRENCH

Our tips

Plant your trees in
bundles

1

Northern exposure
recommended

Clamp your bundles of trees tightly
in a trench dug with a spade

2

Form a mound of sand (or a mixture of soil and sand)
to cover the grafting point (15 to 30 cm high)
Pack the soil

3

4

Water your
plants

5

Storage for up to
3 months
